

NCAWP Gualala Public Workshop

March 9, 2002

9:30 a.m. to 4:00 p.m.

Gualala Community Arts Center

Goals: To inform the public and gather input on the assessment and process, by:

1. Providing an overview of the NCWAP assessment process,
2. Providing the opportunity to review the assessment results and to answer questions and clarify issues, and
3. Gathering input from the public.

Approach: The workshop will consist of plenary and poster sessions on each of the Super Planning Watershed areas, available grant opportunities, and the KRIS database/analysis tool. The biologists, forester, water resource engineer, and geologists who worked on the Gualala Assessment will be presenting their findings and be available for discussion during the poster session.

Agenda

9:30 – 10:30

Plenary Session 1 - Auditorium

NCWAP Overview and introductions: Robert Klamt, Maria Rea/Cathy Bleier

We'll provide an overview of the process, the general results, the workshop approach, and grant funding opportunities.

EMDS presentation and demo: Rich Walker or Chris Keithly

Present the basic approach and results briefly and in simple terms.

Grant opportunities: Janet Blake, Jennifer M., Doug Albin

Brief presentation on the opportunities—poster table set up all day.

Continuous Poster Sessions – Upstairs Room

KRIS – KRIS Noyo or KRIS Coho presentation (Gualala Group will not have time to fully review and modify the Gualala KRIS before the workshop)
